Three errors in this article are listed and corrected. The first two are typographical errors: The 2- and 5-year survival rates should be corrected from "22.3 %" and "7.8 %" to "22.1 %" and "7.7 %", respectively (line 7, page 39). The third error is found in Fig. 2: Some lines mentioned in the figure legend were missing in the figure (page 44). Figure 2 has been updated to include the lines, as shown in the following figure.

We apologize for these errors and any inconvenience they may have caused.

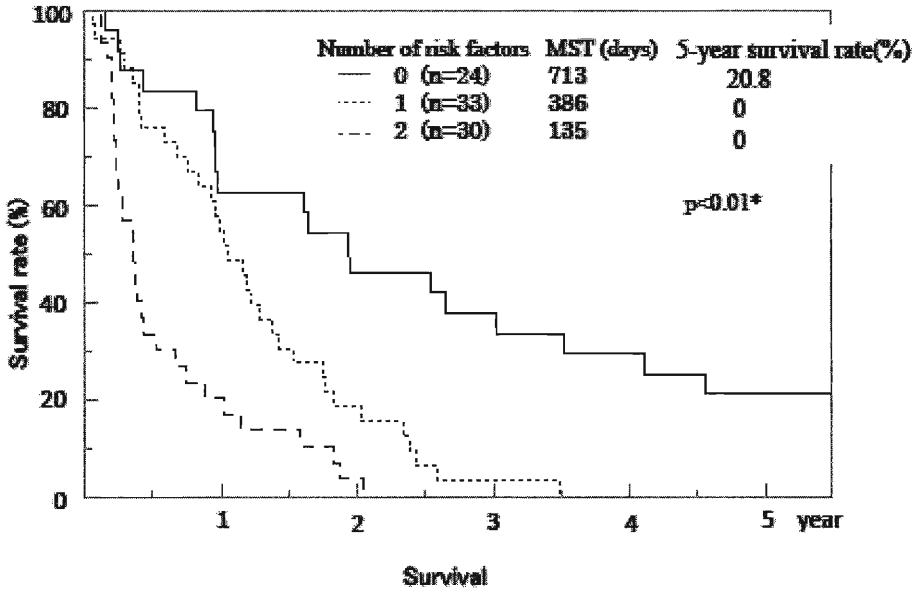

Fig. 2 (corrected) Overall survival according to the number of the risk factors
*Number of risk factor 0 vs 1 $p<0.01$
1 vs 2 $p<0.01$
0 vs 2 $p<0.01$
